Special Position? (Particular page in magazine.) Call for availability. Price \$200 additional per page, per insertion. Advertisements prepared FREE as a courtesy to our customers become the property of *WorldWide Drilling Resource*® and **may not be reproduced** or used in any other magazine, website, or venue of a competitive nature with *WorldWide Drilling Resource*® without explicit written permission. ~ Contact the management for permission to use the advertisement elsewhere. Rates are quoted in U.S. dollars. We gladly accept American Express, Discover, MasterCard, and VISA, as well as checks. Wire transfers are subject to bank fees.

Ad Dimensions:

All advertising material must be in PC FORMAT and will be accepted in the following venues: JPEG • PDF • PSD • TIFF, in high resolution with a **minimum** of 300 dpi. Reverse type is acceptable, but should not be less than ten point and then only be reversed in areas having at least 70% black, magenta, or cyan value.

Grayscale or CMYK color only. RGB color formats do not print correctly and may modify your intended image. **Black type MUST BE 100% black** for clarity in printing; deviations will put hazes around the words and make them illegible. *WWDR* is not responsible if not sent properly. Material may be e-mailed directly to us or sent via DropBox. Any deviations from these specifications must be agreed upon by the management of *WorldWide Drilling Resource*®.

Deadline Dates: Space reservation by the 25th day of the month prior to the preceding month of the issue (for example, November 25th for the January issue). Advertising material when *WorldWide Drilling Resource*® provides ad preparation **FREE** is due no later than the 27th of the month prior to the preceding month of the issue to allow sufficient time to prepare the ad to your specifications and receive your approval. Advertising material prepared by ad agencies must be received by the first of the month prior to the issue month. (If these dates fall on a weekend or during holiday schedule the dates will revert to an earlier time.) *WorldWide Drilling Resource*® is sent to the printer by the 10th.

****ATTENTION ADVERTISING AGENCY**** Please add your fees to these rates as no agency commission is possible at these low rates. Thanks for your understanding.

All Rates subject to printing and postal rate increases.

History is Written Every Day

History not only molds our futures, it's being written every day. **WorldWide Drilling Resource, Inc.** is proud of its heritage and of those who have come through the doors here in Bonifay, Florida, contributing to our continued success.

Like many other drilling-related companies, **WWD** was started on a porch and has since grown into a much-sought-after and followed magazine, both online and in real print. We were the first drilling magazine to be in print and online and have been a reliable source of information for over 20 years. The staff and management of **WorldWide**, affectionately called The **WWD** Team, are known around the world for their "**red jackets**", a symbol of our strength and unity for the industry.

The **WWD** Team is also known for supporting various Drilling Associations the world over through our media coverage of events, notices of upcoming activities, and call-in assistance to help with questions. **WWD** Team members contribute thousands of dollars through scholarship auctions and donations out of the kindness of their hearts. Yes, each and every member has a special place in their heart for this industry and that is what sets **WorldWide Drilling Resource**® apart from the rest. What separates your company from the rest of the companies out there?

Brand recognition is one of the biggest keys to success. When you think of a watch, phone, or truck, what kind are you thinking of, and why? It's likely you remember its name, logo, uniform, catchphrase, and have seen advertising promoting those items and companies. These are things you need to think about when you are promoting your own company. Proper marketing strategies and working with trusted industry professionals, can help you achieve growth while building customer loyalty.

Although keeping up with this ever-changing industry is challenging, **WWD** is up for the task. We are continually updating and adding to our print presence, and our website www.worldwidedrillingresource.com. From Digital and Print advertising, to free Editorial content and special Event opportunities, we offer so many ways to get your company noticed, it's mind-boggling. The **WWD** Team stands ready to assist you with your future marketing plans. We are a full-service company - we'll help your company prepare ads and editorial content, locate relevant industry trade events, and we will create a customized marketing plan that suits your budget.

History, as we mentioned earlier, is being written every day. So, let's make history together in 2026.

Your invitation from . . . **THE**

Is your Association struggling or in need of any help? We are here for you!

The Mission of **Get Association Help™** is to HELP our drilling contractors throughout the United States and Canada maintain or begin an association to build a working relationship throughout the drilling-related industry. If states and provinces already have an association, our purpose is to be a communication hub to relieve them of the tasks of member database management; handling correspondence; invoicing members; preparation and distribution of physical as well as online newsletters; recruitment / retention; event management / assistance, and website development / maintenance; among other things. If no association currently exists and members of the state / province would like to begin such a venture, the **GAH** Team is ready, willing, and able to assist in that area as well.

We cater to your specific needs!

**Call us: 850-547-0102 or visit us online:
www.GetAssociationHelp.com
and let us know how we can assist you.**
