For over 20 years, the Texas Ground Water Association scholarship has been helping students achieve their college goals. This year, a record 28 students, 15 of which were new applicants, were awarded scholarships.

Funding for the scholarships was made possible with the support and generous contributions of association members.

### Wildcat Oil Tools

Rick Whitfield has joined the Wildcat Team as Executive Vice President of Sales and Marketing.

### California Groundwater Association Auxiliary

Woman of the Year award was presented to Carolyn Ogilvie of Diamond Core Drilling, Inc.

### Wolf Pump

Bryan Duffy has accepted the position of customer experience manager for Wolf Pump. Prior to coming to Wolf, Bryan spent 25 years working with lineshaft and submersible turbine pumps for Xylem Goulds Water Technology. His extensive customer service experience, applications engineering, marketing, and product management will be a great asset to the company. He is excited about the company's strong commitment to service, responsiveness, and product quality.

### Volvo Penta Americas

After 26 years with Volvo, and seven as President of Volvo Penta Americas, Ron Huibers has decided to move to another role within Volvo Penta. Succeeding Ron will be Martin Bjuve, current chief financial officer (CFO) and senior vice president (SVP) Business Office Volvo Penta.

"The team, customers, and industries we serve here have been exciting and rewarding. This role has been the best of my long career," Ron said. "I am thankful to have worked with great leaders and teams, and establish stronger partnerships. However, as we have planned, I want to spend more time with my family that has been difficult to balance given the travel demands of being president. The time is right to hand over the baton as the Americas continues into the next stage of its journey."

Ron Huibers

Martin Bjuve

Martin Bjuve has been with Volvo Penta for 17 years and is a member of the Volvo Penta Executive Group. He has developed a broad commercial and customer experience in Volvo Penta. Prior to being appointed global CFO, he was based in Chesapeake, Virginia, for five years - first as CFO for Volvo Penta of the Americas, and later also as VP of customer support.

"I am thrilled to take on this new role. Volvo Penta Americas is very special for me and my family. I look forward to [leading] the very strong team we have in the region and keep growing the diverse business we have together with our partners. The company has made great progress under Ron's leadership. As we continue to innovate and grow in both the Marine and Industrial segments, we intend to build even further for the future," said Martin.

The recruitment of a new CFO and SVP, Business Office Volvo Penta is initiated and will be announced at a later stage.
